

# trend steppers

## **Typical scenario:**

*You see a job posting, you apply, you don't hear anything, you feel frustrated.....what can you do to better your chances of getting recognized?*

Come join the team at **Trend Steppers** for an interactive, educational workshop focused on how to develop more effective resumes. The resume is only the first step.....let it be the right one.

**Trend Steppers** was established by two successful recruiting professionals, Tony Seminary and Kristin McKinney. Tony and Kristin bring a deep knowledge of the recruiting, interviewing and hiring process with over 25 years of collective recruiting experience between them. Their experience has spanned a variety of industries, niche specialties, geographic locations, clients, and professionals they represent. This has given them a unique insight into what employers are looking for in a resume. The goal is to make employers think twice before moving on to the next resume!

Limited Space Available! Contact Trend Steppers today to RSVP.
